SAFETY STATEMENT

Your Project. Our Priority.
Safety Always.

Strikeforce Bird Control Safety

1. Commitment to Safety

At Strikeforce Bird Control We:

- ✓ Comply fully with all applicable OSHA, EPA, and local government health and safety regulations.
- ✓ Establish and maintain safe work environments on every project site, including government and commercial facilities.
- ✓ We use only trained and certified personnel for elevated work, confined spaces, pesticide application, or wildlife handling.
- ✓ Continuously evaluate safety risks associated with aerial lifts, roof work, chemical deterrents, and avian management activities.
- ✓ Promote a safety-first culture through open communication, accountability, and continuous improvement.

2. Commitment to Responsibilities

- ✓ Our company will provide all required personal protective equipment (PPE), safety training, and tools necessary to perform work safely.
- ✓ will enforce compliance with safety procedures and ensure pre-job safety briefings along with Safety Talks are conducted daily.
- ✓ Employees are responsible for performing their work in a safe manner, reporting hazards immediately, and refusing unsafe work conditions.
- ✓ Subcontractors are required to adhere to Strikeforce's Bird Control safety standards as this being the condition of their contract.

3. Training & Awareness

- ✓ All employees will receive initial and refresher training in fall protection, ladder safety, lift equipment use, respiratory protection, and safe bird-handling procedures.
- ✓ Safety meetings are held at least monthly, and all near misses or incidents are investigated to prevent recurrence.
- ✓ Strikeforce Bird Control maintains up-to-date Safety Data Sheets (SDS) and ensures all materials are handled in compliance with environmental standards.

4. Environmental and Wildlife Protection

As a certified bird control company, we pledge to:

- ✓ Conduct all operations humanely and in compliance with the Migratory Bird Treaty Act and local wildlife regulations.
- ✓ Avoid harm to non-target species and sensitive habitats.
- ✓ Use eco-conscious deterrent methods whenever feasible, reducing the environmental footprint of our operations.
